PCR REAGENT

Introducing **KAPA2G™ Fast HotStart**

A second-generation enzyme for the ultimate in speed and performance.

KAPA2G Fast HotStart combines a second-generation DNA polymerase engineered for extreme speed with HotStart technology for optimal performance.

The result is industry-leading performance:

- Reaction rates as low as 1 sec per cycle.
- Outstanding performance in multiplexed applications.
- Savings in reagent costs of 24-75%.
- No special PCR consumables or instrumentation required.

Dedicated Instrument

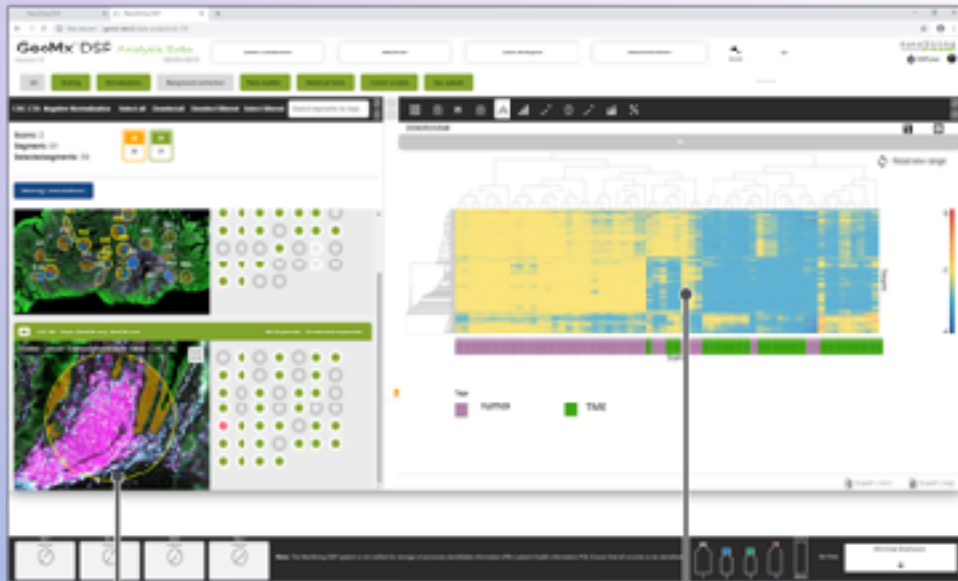

Image of ROI
4 of 24
(Droma)

100% traceability from profiling data to tissue image:

When specific profiling data is selected the GeoMx Data Analysis tool will automatically show the tissue image corresponding to a ROI and vice versa.
