ExtraGene® is the professional manufacturer of disposable plasticware for laboratories.

We have dedicated more than 10 years to provide excellent quality certified by ISO-9001:2000 at competitive prices and concerned requirements of our customers.

We supply high quality PCR tubes, thin wall tubes, microcentrifuge tubes, pipette tips and various sizes of storage racks.

All the pipette tips are chemical and heat resistant, for which the advanced material "Highly Purified Polypropylene" is used.
