ThermoStat Incubater EGM-207

Product Description

· Fast change of temperature,even temperature control, precise temperature, less than 180 seconds for temperature rising from 25°C to 99°C
· Average temperature rise rate:1°C/5s
· Temperature setting range:1°C-99°C
· Precision of temperature control:±0.1°C
· Temperature evenness:±0.5°C
· Display precision:0.1°C
· Time setting range:1s-99h 59min, or continuous operation
· Heating module sample capaci:48X0.5ML,30X1.5ML,30X2ML, 96X0.2ML,or other special module
· Overall dimension:277X250X132(mm)
· Weight:about 3.5Kg
